MEMORANDUM

TO: Idaho House and Senate Members

FROM: State Controller's Office
Administrator, Division of Human Resources
Budget & Policy Analysis Supervisor, Legislative Services
Administrator, Division of Financial Management

Each year we receive requests from various legislators to provide certain categorical and statistical information regarding the number of state employees. Each of the four agencies stated above maintain reports containing these numbers. However, since each office has different needs, the reports are not always alike in format and content. Also, categories of employee counts can vary.

The attached report provides a comprehensive list of the number of state employees as of December 3, 2007. Since the state employee work force is highly mobile, a report provided on any other date will naturally vary from the figures in this report. Through the advancement of technology, the financial, personnel, and payroll data warehouse Idaho Business Intelligence Solution (IBIS) can provide most of these same reports on an updated daily basis. Budget analysts from Legislative Services and Division of Financial Management as well as employees in the State Controller's Office and Division of Human Resources have access to these IBIS reports.

For definition purposes of this particular report a State Employee is a person, other than a patient, inmate, or student employed in a state institution, working at an agency of the State of Idaho, or a local health district. This definition includes part-time employees, however, it specifically excludes: independent contractors and employees of such independent contractors; teachers and other employees of local independent school districts; persons affiliated with state agencies or educational institutions who are paid entirely from local or non-state funds; and individuals who, by law, are not required to be paid through the State Controller's Office.

Any questions you may have concerning employee numbers, or the data in this report, should be referred to Brad Hoaglund, Chief of Staff, State Controller's Office, 334-3100.

Active Employee Counts

The four agencies responsible for compiling active employee counts have established the following parameters to be used in the calculation of active employee counts:

1. Elected officials are counted once, regardless of any Board, Commission or other memberships.
2. A state employee in multiple positions within ONE state agency is counted once. Note: If any of the positions are classified, he/she is counted as classified. Otherwise, he/she is counted as non-classified.
3. The non-classified temporary/part-time column is the count of employees working less than full-time. It includes Legislative attachés, students, part-time faculty, temporaries, etc.
4. Full-time Board Members such as Tax Commissioners, Industrial Commissioners, and Public Utility Commissioners are counted as regular non-classified employees.
5. Full-time faculty members are counted as regular non-classified employees.
6. The 'TOTAL – ACTUAL' represents a total of employees per agency. Note: If an employee works at more than one state agency, he/she is counted in each agency.
7. The 'TOTALS – COUNTED ONCE' represents a total of employees per social security number. Note: This total should always be smaller than the above total by the number of employees that work for multiple state agencies.
8. The State Controller's Office processes payroll for all state of Idaho employees, however, BSU, ISU, and U of I pay their employees separately. Therefore, university employee counts depend upon how an employee is defined by each university.
